

Providing Interim Funding to Recipients of Indian Housing Block Grants

In 2003, the Housing and Urban Development (HUD) Office of Native American Programs released a notice to provide instructions to tribes and tribal designated housing entities (TDHE) on the process for requesting an advance on Indian Housing Block Grant (IHBG) funds when there is limited funding under a Continuing Resolution (CR). This may result in some administrative delay in allocating the current Fiscal Year (FY) IHBG to recipients.

Listed below are conditions that apply to Tribes/TDHEs, eligible for an advance of funds:

1. An Indian Housing Plan (IHP), form HUD-52737, for the current FY has been submitted and determined to be in compliance with NAHASDA; and
2. There are no unobligated development or modernization program funds or reserves available that were provided under the United States Housing Act of 1937 ("1937 Housing Act"); and
3. There are no unobligated IHBG funds available, excluding any funds invested in accordance with 24 CFR §1000.58.

Use the link provided below to get more information on eligibility, amounts of advance, submission requirements, and processing instructions.
