USET/USET SPF COVID-19 Tip of the Day

April 17, 2020 Tip 2020:08

NUMEROUS COVID-19 FUNDING OPPORTUNITIES AVAILABLE

The Coronavirus Preparedness and Response Supplemental Appropriations Act, the Families First Coronavirus Response Act, and the Coronavirus Aid, Relief, and Economic Security Act collectively represent well over \$2 trillion in new, one-time domestic spending to combat the COVID-19 pandemic. Additionally, there is the possibility of additional COVID-19 spending packages as the United States continues to respond to this unprecedented pandemic. Several announcements on how to access funding opportunities that resulted from this legislation have already been released and more information about additional opportunities will be forthcoming. While there are, and may continue to be, set-asides specific to Indian Country, Tribal Nations and Tribal organizations will also be eligible for additional non-Indian Country specific funding opportunities. Make sure you and your team stay up to date on these funding announcements to take greatest advantage of these opportunities.
