

We're looking for partners!

- Does your Tribal Nation offer behavioral health services, or would you like to offer behavioral health services?**
- Are you interested in highlighting your current behavioral health resources?**
- Are you interested in assessing your Tribal Nation's behavioral health infrastructure and capacity?**
- Would you like to increase partnerships and collaborations with external organizations?**

USET is looking for year three (September 30, 2020 to September 29, 2021) partners to participate in the Tribal Behavioral Health Needs Assessment for the Substance Abuse and Mental Health Services Administration Strategic Prevention Framework–Partnership for Success (SAMHSA SPF-PFS) program. After completing the needs assessment, each partner will receive a recommendation report outlining results and available behavioral health system resources.

Interested? [Click here](#) to learn more about the project.
