

USET STRONG:

Strengthening Tribal Resilience, Operations & Nation Growth

Agenda

Time	Activity	Description	Location
Day 1: Wednesday, July 8, 2026			
8:00 – 8:15 AM	Light Breakfast Bites	Start your day with a delightful selection of breakfast bites while mingling with fellow attendees as you sign in.	<u>Gordon Center</u> 1120 NW 14th St, Miami, FL 33136
8:15 – 8:30 AM	Opening Remarks	UM and USET	Gordon Center Training auditorium
8:30 – 9:45 AM	Global Institute for Community Health and Development Presentation	Gain insights into the mission and initiatives of the Global Institute. This presentation will introduce you to our community health and disaster management efforts. More details here.	Gordon Center Training auditorium
9:45 – 10:30 AM	Introduction of Gordon Center for Simulation and Innovation in Medical Education + Tour	Gain a comprehensive overview of the Gordon Center's Emergency Training Programs, which annually train thousands of registrants. These programs are implemented across more than 800 agencies in Florida and over 1,500 globally. The session will provide detailed information on training offerings, including Active Shooter Response Training for First Responders, Unarmed Security, and Normal Personnel. Tour the state-of-the-art Simulation Lab, showcasing innovative training techniques.	Gordon Center Training auditorium
10:30 – 12:30 PM	Active Shooter Response Training	This comprehensive training program is designed to equip participants with essential skills and techniques for responding to active shooter situations. The training will cover: <u>Rescue Task Force (RTF) Techniques:</u> Participants will learn how to effectively implement rescue task force strategies in high-pressure scenarios. <u>Civilian-Focused Strategies:</u> The training will emphasize the "Run, Hide, Fight" approach, empowering civilians to make informed decisions during an active shooter event.	Gordon Center Training auditorium

Time	Activity	Description	Location
		<p><u>Stop the Bleed (STB)</u>: Participants will gain hands-on experience in life-saving bleeding control techniques to stabilize victims before medical help arrives.</p> <p><u>Responder Coordination</u>: The program will focus on the integration of rescue task forces, Stop the Bleed techniques, and movement strategies, ensuring seamless collaboration with first responders.</p>	
12:30 – 1:30 PM	Lunch	Enjoy a catered lunch.	Gordon Center Training auditorium
1:30 – 3:30	Active Shooter Response Full-Scale Exercise	The training culminates in a full-scale exercise, providing participants with the opportunity to apply their skills in a realistic and controlled environment, enhancing their readiness and response capabilities.	Gordon Center
3:30 – 4:30 PM	Exercise Hotwash	A debriefing session will gather feedback from participants discussing observations, what went well, what needs improvement, and any lessons learned.	Gordon Center Training auditorium
Day 2: Thursday, July 9, 2026			
8:00 – 8:15 AM	Light Breakfast Bites		Gordon Center Training auditorium
8:15 – 9:15 AM	Understanding and Communicating Hurricane Hazards Presentation	This presentation will explore the complexities and uncertainties inherent in hurricane forecasting. It will provide insights on how these uncertainties should shape effective communication strategies to convey hurricane-related impacts accurately and responsibly.	Virtual
9:15 – 12:15 PM	Basic Disaster Life Support™ (BDLS®) Course Overview Part I	The BDLS® course is designed to prepare health professionals for managing injuries and illnesses caused by disasters and public health emergencies. It emphasizes an "all-hazards" approach to mass casualty management and population-based care.	Gordon Center, Training auditorium
12:20 – 1:25 PM	Lunch		Gordon Center Training auditorium

Time	Activity	Description	Location
1:30 – 5:00 PM	Basic Disaster Life Support™ (BDLS®) Course Overview Part II	Key components include: <ul style="list-style-type: none"> • Emergency management and public health principles using the PRE-DISASTER and DISASTER Paradigms™. • Focus on health workforce readiness, protection, and casualty management. • Interactive scenarios and group discussions to reinforce a standardized lexicon and knowledge base for disaster response. <p><i>The course is aimed at a broad range of audience categories that share a common likelihood of providing clinical care and assistance to casualties during a disaster or public health emergency, including healthcare, public health and allied health professionals; emergency medical services personnel; and other medical first responders and receivers.</i></p>	Gordon Center, Training auditorium
