

In the Round

Tabletop Discussion: Talks Along the Path
Facilitated by: Onawa M. Miller
USET Office of Tribal Public Health Director

Program-Policy Alignment

How does your Nation intentionally align program activities with Tribal policy, so they reinforce each other rather than operate in parallel?

Braiding Funding Streams

What strategies have helped you braid federal, Tribal, and grant funding in ways that strengthen—not complicate—your program operations?

Interdepartmental Collaboration

What practices or structures help your departments work together instead of in silos, especially when addressing complex community needs?

Citizen-Centered Design

Where have you seen programmatic or policy changes directly improve the lived experience of your citizens, and what made that shift possible?

Cultural Weaving

How do you weave cultural knowledge, language, or community values into program delivery or policy development in ways that feel authentic, sustainable, and aligned with your Nation's identity?

Scaling that Works

What is one practice, tool, or policy your Nation uses that you believe other Tribal Nations could adapt to strengthen their own systems?

Thank you!
