Further information about the times and locations of consultations will be made available on the UN [website](#) and also on the Center's [website](#). It is vitally important that tribal governments speak for themselves and present their views directly to the UN and member states during these upcoming consultations. The results of these consultations are set to be finalized by the General Assembly before September, 2017, and will shape how indigenous governments will be able to participate at the UN for many years to come.

The focus of the consultations, at least initially, will be on the attached framework document which outlines the results of consultations held earlier this year.
